Making a difference

Dolphin
Large Print Keyboard

The Dolphin Keyboard features large print, high contrast keys that are easy to see and also includes 18 Quick Buttons for speedy access to your Dolphin software's most useful features.

These buttons are large and of varied shapes, making them tactile and easy to locate by touch.

What you need

The Dolphin Keyboard is recommended for use with SuperNova version 13.50 or later, or GuideConnect version 1.01 or later.

Simply plug in your Dolphin Keyboard using the USB cable attached and get started straight away!

Warranty

Your Dolphin Keyboard comes with a 12 month warranty against manufacturing defects, which are very rare. If you suspect a problem, please contact us immediately stating where and when you purchased it. We will happily replace any keyboard with a genuine manufacturing fault. We will not replace keyboards which have been misused or damaged.
