Index Acoustic Cabinet

Noise cancelling for Index Basic-D V5, Index Everest-D V5
and ETC Romeo and ETC Juliet

The Index Acoustic Cabinet provides a cost effective solution for housing the natural noise made when embossing quality braille with a braille embosser. The Index Acoustic Cabinet is specifically designed for the Index Everest-D V5, Index Basic-D V5.

It is suitable for high volume braille production in any office or classroom like environment, offering pleasant noise levels. Reduces noise with 25 dB(A)

The Index Acoustic Cabinet comes in two flat packages and is easy to assemble following the included assembly instruction, just choose embosser model when assembling. Sales start May/June 2023.
